

More Money Rejected Than Accepted?

Increase acceptance in seconds.

By not cleaning, you risk:

- Hidden costs of service
- Costs due to equipment replacement, and parts and service expenses
- Manpower associated with "broken" equipment
- Annoyed clients due to "broken" equipment

Bill Acceptor Cleaning Card featuring Waffletechnology®

This cleaning card design incorporates a special magnetic code to allow the acceptance of this cleaning card into a variety of different models of bill acceptors. The card is accepted in 98% of models used in North America, eliminating the guess work of which card to use on your bill acceptor. Once the cleaning card enters the bill acceptor, the Waffletechnology® design allows the cleaning card to reach the optical lenses and other critical components. Use this product once per week to maintain a high acceptance rate for currency.
