

Faded Receipts, Labels or Barcodes?

Get clearer prints after a simple cleaning.

By not cleaning, you risk:

- Wear on the printhead
- Faded prints or erroneous barcodes
- Label jams and wrapping
- Manpower associated with "broken" equipment
- Damage to printer due to "self-help attempts"

Thermal Printer Cleaning Card featuring Waffletechnology®

The Thermal Printer Cleaning Card featuring Waffletechnology® was designed to remove the most stubborn contaminants. The US, Canadian and Australian patented design of raised and spring-loaded platforms is used to clean the printhead and provide enough tension to rotate the platen for a full circumference clean. Use this product with every change of paper stock to maintain optimum printer performance.

Available Sizes:
