

# Cleaning Pens, E-Z Wipes & E-Z Strips

Heading straight to the top as your one-source supplier of Cleaning Solutions for your preventative maintenance needs

## What is a Cleaning Pen?

This unique item holds a cleaning solution of 99% pure isopropanol alcohol in the reservoir barrel. It is ideal for the technician's tool bag. It is suitable for a quick and safe swipe cleaning of easily accessed print heads and read/write heads. The proprietary felt tip does not harm sensitive equipment and will leave no residue. Its design provides controlled use and ensures complete head is cleaned. Available in both jumbo and slim barrels.

## What is an E-Z Wipe?

Pre-saturated lint free wipes for multiple technical cleaning uses and general cleaning.

Non-smearing, quick drying, and easy to use. Available in convenient tear-open pouches ensuring optimum condition prior to use. Will not harm sensitive equipment; leaves no residue. Disposable cleaning wipe prevents re-contamination of heads.

## E-Z Safe Wipes

High quality lint-free wipes made of non-woven polyester ideal for general cleaning application. These generous 121x165mm cloths are highly absorbent with good wet and dry strength. They are packaged in a convenient PVC

tray with lid to prevent contamination.

## What is an E-Z Strip?

This product is acclaimed as a final finishing and polishing media. It is contaminant free, waterproof and resistant to most oils and solvents. Use this item to refurbish sensitive print and read/write heads. It will remove any stubborn or burnt-on contaminants restoring these heads to their original condition. Store in a clean environment and you may reuse up to 6 applications.

## Our newest pre-saturated wipe!

The E-Z Off Wipe is a strong reinforced cloth pre-saturated with a specially formulated

solution to lift and remove adhesives safely and efficiently from most surfaces. Quick and easy to use.

## What is a Label Scraper?

This unique plastic tool is used as an aid to remove adhesive from sensitive equipment. Gently scrape adhesives from surfaces including read/write heads, glass, lenses, plastic, mirrors and rubber. Use with our E-Z Lifter Solution and E-Z Off Wipes.
